Subject: Generator

Dear pastor and Mrs. Heather,

Praying that things are going well with you and the children. Good news and bad news: First, I finally bought the generator. I paid yesterday and it is delivered to me today. The bad and sad news is that: It cost me \$4,996.99 US. It was hard to find a diesel one and also unable to find the size I was looking for. Yesterday I found myself in a very narrow situation and finally I needed to take that risk. I gave a check of \$4,000.00 and the \$996 will be paid in a period of three months, which is April 20.

I give thanks to God for such a blessing and ask him to shed upon all the saints up there who have contributed in such a way to prevent me from losing my back in pulling water from such a deep water reservoir. I will send you a copy of the contract with the AUTOMECA COMPANY so that you can see the details about the price and the model of the generator; enclosed will be also some pictures. I am also sorry that it has taken that long before I could finally buy it.

How are things going on with you up there? I miss the children and send them my sweetest hugs.

Your brother and friend in the living Lord,

Thomas
